

# Information and Instructions

This individual shop manual is one unit of a series on wheel type tractors. Contained in it are the necessary specifications and the brief but terse procedural data needed by a mechanic when repairing a tractor on which he has had no previous actual experience.

The material is arranged in a systematic order beginning with an index which is followed immediately by a Table of Condensed Service Specifications. These specifications include dimensions, fits, clearances and timing instructions. Next in order of arrangement is the procedures paragraphs.

In the procedures paragraphs, the order of presentation starts with the front axle system and steering and proceeding toward the rear axle. The last paragraphs are devoted to the power take-off and power lift systems. Interspersed where needed are additional tabular specifications pertaining to wear limits, torquing, etc.

## HOW TO USE THE INDEX

Suppose you want to know the procedure for R&R (remove and reinstall) of the engine camshaft. Your first step is to look in the index under the main heading of ENGINE until you find the entry "Camshaft." Now read to the right where under the column covering the tractor you are repairing, you will find a number which indicates the beginning paragraph pertaining to the camshaft. To locate this wanted paragraph in the manual, turn the pages until the running index appearing on the top outside corner of each page contains the number you are seeking. In this paragraph you will find the information concerning the removal of the camshaft.

# INDEX

## (By Starting Paragraph)

BELT PULLEY .....	285	Valve Adjustment .....	78
BRAKES .....	264, 265	Valves & Seats .....	76
Transmission Hand Brake .....	268	Valve Guides & Springs .....	77
CAB .....	414, 415	FINAL DRIVE GEARS .....	263
CARBURETOR .....	113	FRONT AXLE .....	1, 22, 45
CLUTCH .....	164	FRONT-WHEEL DRIVE .....	55A, 56
CLUTCH, PTO .....	280, 281	GOVERNOR:	
COOLING SYSTEM:		Diesel .....	141, 142
Radiator .....	148	Non-Diesel .....	145
Thermostat .....	147	HYDRAULIC LIFT SYSTEM:	
Water Pump .....	150	Adjustments .....	294
DIESEL FUEL SYSTEM:		Cooler By-Pass Valve .....	289
Bleeding .....	123	De-Luxe Control Valves .....	409
Filters .....	122	Filters .....	287, 288
Injection Pump .....	132, 137	Lift Cover, R&R .....	354, 355, 356
Injector Nozzles .....	124	Lift Cylinder, Overhaul .....	358, 369
Thermostat .....	144	Load Monitor, R&R .....	370
Troubleshooting .....	114	Pressure Check .....	293
DIFFERENTIAL .....	257	Priority Valve .....	385
DIFFERENTIAL LOCK .....	261	Pump .....	379
ELECTRICAL SYSTEM:		Remote Control Valves .....	389
Alternator & Regulator .....	152	Selector Valve .....	361
Generator & Regulator .....	151	Troubleshooting .....	292
Ignition Distributor .....	160	IGNITION SYSTEM .....	157
Starting Motor .....	155, 156	POWER STEERING:	
ENGINE:		Bleed System .....	13, 31, 40, 51, 67
Assembly, R&R .....	72	Control Valve .....	16
Camshaft .....	90	Pump .....	15, 34, 53
Connecting Rod Bearings .....	98	Steering Gear .....	5, 10
Crankshaft Bearings .....	99	Steering Motor .....	28, 44, 55
Crankshaft Oil Seals .....	100	System Pressure .....	14, 41, 52
Cylinder Head .....	74	With FWD .....	55K, 65, 66
Cylinders .....	94	POWER TAKE-OFF .....	271
Engine Balancer .....	103	REAR AXLE:	
Flywheel, R&R .....	104	Axle Housings .....	262
Oil Pan .....	105	Bearing Adjustment .....	263
Oil Pump .....	106	Shaft, R&R .....	262
Pistons & Rings .....	92, 93	Reduction Gear .....	251
Piston & Rod Removal .....	91	STEERING GEAR (Manual) .....	5
Piston Pins .....	97	TRANSMISSION:	
Rocker Arms .....	82	Dual Power .....	171
Timing Gear Cover .....	83	8-speed (Non-Synchromesh) .....	177
Timing Gear .....	85	8-speed (Synchromesh) .....	186
Turbocharger .....	107	Select-O-Speed .....	196

## DUAL DIMENSIONS

This service manual provides specifications in both the U.S. Customary and Metric (SI) systems of measurement. The first specification is given in the measuring system perceived by us to be the preferred system when servicing a particular component, while the second specification (given in parenthesis) is the converted measurement. For instance, a specification of "0.011 inch (0.28 mm)" would indicate that we feel the preferred measurement, in this instance, is the U.S. system of measurement and the metric equivalent of 0.011 inch is 0.28 mm.
